## SCOPE OF SERVICE

### DISCOVERING & PLANNING

We'll look at your business strategy, processes, and portfolio to determine which proven and emerging technologies will work best to boost productivity and revenue, meet Evolving customer requirements, and ensure the security of your data.

### AUDIT AND ASSESSMENT OF YOUR EXISTING IT ENVIRONMENT

What is your efficiency? What is your capacity for growth? Is your Hotel IT infrastructure measures up to standard?

We'll evaluate your current IT environment and make recommendations for scaling up without breaking the bank.

### CUSTOMIZED IT INFRASTRUCTURE DEVELOPMENT

Now that our strategic advisors have worked with you to pinpoint and prioritize your IT needs, the next step is to identify the systems and applications that will best support your business goals and formulate a smooth plan for implementation.

### IMPLEMENTATION AND ONGOING IT MANAGEMENT

Once we've determined what IT infrastructure, upgrades, and maintain you need to optimize productivity and business growth, you can trust us to test and roll out your customized IT solutions with minimal disruption. We can also expertly maintain and manage your system – it's a worry-free option that allows you to focus on your business, now and in the future.

# WHY JE TECH LIMITED

At JE Technologies Ltd, we appreciate the trust you put in us when you hand us the keys to your IT kingdom. We've earned that trust from hundreds of clients in dozens of industries, and we know we can earn it from you.

Our consultants are strategic thinkers with years of experience in both IT and business. We do our homework, and make sure we understand your business goals before working with you to set technology goals.

Our specialty is custom-made solutions for how you work, sell, and grow. We think this is important, because at the end of the day, IT is about people, not computers.
